Literacy Activity Sketch to Stretch

After listening to the read aloud, have your child draw a picture of what they think spring will look like outside.

This is a good way to see if they grasp the concept of spring.

Dramatic Play or Music Activity

Ten Little Chicks

Five eggs and five eggs, (hold up ten fingers)
That makes ten.
Sitting on top is the mother hen. (cover one hand with the other)

Crack, crack, crack, (clap 3 times)
What do I see?
Ten little chicks,
As cute as can be! (Hold up ten fingers)

Math Activity Egg Hunt

What you'll need:

- 1 pack of plastic eggs

1. Label the plastic eggs 1-20.
2. Hide the eggs in the yard or around your house and have your child find them.
3. Now have them put the eggs in order numerically.

Science Activity Cooking Eggs

Cooking is a great way to integrate science into early learning.

When cooking the egg(s) with your child, talk about how the egg changes and why they think that happens. Let them be as hands on as possible!
